

## Data Monitoring

For the best experience on our website, we recommend using Google Chrome as your browser.

Your account can be accessed from our main website [www.sdwisp.com](http://www.sdwisp.com) and clicking on 'Existing Customers' in the upper right hand corner.

Your username and password can be located on your invoices generated from the billing system. If you have not already done so, please change your assigned username/password once logged in. *No banking usernames or passwords please!*

- A) From your Account Summary, click on the 'Show' button next to your service plan.
  
- B) Click on 'See Usage'. Here you will see a daily usage report and graph for the month (*You may need to wait a few seconds for it to load*).

We do not track data from Midnight to 6am every day. This is an excellent time to do software updates and online cloud backups.

Here you will see a daily usage report and graph for the month.

Billing and data usage resets the first of every month.

(UPDATED FOR WISPMON 4.0 NOVEMBER, 2016)
